1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Bauerlein '007. Bauerlein '007 discloses an ice making conveyor 11 having an ice level sensor 80 which senses the level of ice in the bin 70 and shuts off the electricity to the ice maker.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
